EDUCATION

Software Engineering
SMK TI BALI GLOBAL
DENPASAR
June 2019 - June 2021
Denpasar , Bali

SKILLS

JavaScript
HTML
CSS
React.js
Node.js
PHP
MongoDB
Express Js

CAREER OBJECTIVE

Software engineer with proven ability to adapt in collaborative, self-started environments while remaining focused on achieving high quality results under tight deadlines. This quality and results based approach prompted me to collaborate with several companies in Indonesia and even outside Indonesia to create a digital marketing campaign that doubled the average signup in a month. Want to get a challenging position in a prestigious company like Google Or Gojek which will expand my learning and build my developer skills.

WORK EXPERIENCE

Junior Web Developer

Bali Gatra

June 2021 - June 2022 / Denpasar , Bali

- Create And Maintenance Website
- Bugs Fixing On Website
- Create API and Reskin Website
- Created and oversaw wireframe designs from client requests.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction by 31%.
- Built API following RESTful standards to allow users to submit information by storing data in MySQL.
